SEEKING MOTIVATED TEAM MEMBERS WHO THRIVE ON CHALLENGE!
Office of Statewide Health Planning and Development (OSHPD) is a special funded department; this opportunity is not impacted by Executive Order S-16-08.

Under general supervision of the Architecture and Infrastructure Manager, the incumbent will participate collaboratively in the development of information systems strategies and solutions to meet and achieve OSHPD's business and technology goals and future technology vision. Knowledge and experience in network infrastructure development and Information Technology Information Library (ITIL) a plus.

Duties:
- In a collaborative environment with the business representatives; research, analyze, architect, design, and refine OSHPD's enterprise architecture to support Sacramento and Los Angeles' offices, and field staff's mobility requirements.
- Plan, design, develop, and integrate network systems consistent with existing or planned network infrastructures, including disaster recovery.
- Provide and maintain a highly available infrastructure through hardware, software, and circuit redundancy.
- Plan, develop, analyze, design, test, implement, and document customer projects.
- Configure and optimize network servers, routers, and switches.
- Network architecture and planning which includes planning network infrastructure changes to accommodate new and changing workload. Examples of new technologies include MPLS, network encryption, network security, converged services, Voice over IP, streaming video.

Desirable Qualifications:
- Must have project management and network infrastructure development experience.
- Information access architecture development experience.
- LAN/WAN, SAN, Fiber Switches, Citrix, Data Warehousing, IT Security, Novell, NetWare, GroupWise, VMWare, HP DataProtector, HP Blade systems, Symantic Anti-Virus and Cisco VOIP.
- Ability to write technical documentation, i.e., design specifications, project charters, project management plans, sizing estimates, for the business reader.
- Work in a team environment with technical and business team members.

Who May Apply:
Applications will be accepted from individuals currently in the class or who have list, transfer or reinstatement eligibility to the class. Individuals with list appointment should attach a copy of their notice of test results. Appointment is subject to SROA/surplus policies. The most qualified individuals will be selected for an interview. Attach copies of degrees or Industry certificates, such as MS, MCSE, Novell CNE, or Cisco CCNA. Minimum qualifications will be verified.

Interested individuals should submit a resume and a State Examination and/or Employment Application, STD. 678 to:

> Information Technology Services Section
